

CWLP PRESENTS

Statewide Virtual Learning Series 2025–2026: Connected Classrooms, Connected Communities

Don't miss this opportunity to sample the expertise of Teacher Leaders from the CWLP Sites around the state virtually from the comfort of your home!

cwlp.stanford.edu

What is the CWLP Statewide Virtual Learning Series?

For the first time ever, CWLP Sites are offering Saturday programs focused on connection—to students, culture, colleagues, and new tools like AI. Each session provides practical strategies to make your teaching more engaging, meaningful, and connected.

Virtual Learning Series (VLS) is a series of half-day (3 hours), online professional learning sessions designed for all language teachers that are presented by the top leaders of the California World Language Project (CWLP).

In 2025-2026, each CWLP Site will offer one Saturday program, starting at 9:00 am, from October through May. Registration for each program is \$50.00. **Please note:** registration dates are firm, and each CWLP Site reserves the right to cancel a program depending on enrollment.

We hope you'll join us for this unique opportunity to learn, collaborate, and be inspired at ALL CWLP Sites!

Southern Area International Languages Network

Beyond the Prompt: Interpersonal Communication in Action with AI

Discover practical strategies to spark authentic, meaningful conversations across all proficiency levels. Explore culturally grounded prompts aligned with ACTFL and California standards, then learn how AI can streamline planning and inspire creativity. Leave with classroom-ready resources, fresh ideas, and confidence to use AI thoughtfully and ethically in language learning.

Stanford World Language Project

A Safe and Welcoming Space for ALL: Identity and Belonging in WL

Explore how teachers can build classrooms that are safe, welcoming, and responsive to all learners. Together, we'll focus on strategies that help students navigate personal identity while developing language and cultural connections. By fostering belonging, educators empower students to connect with their roots, thrive academically, and love coming to class.

January 10, 2026

Berkeley World Language Project

Scaffolding Authentic Materials for All Learners

Make authentic resources—songs, videos, stories, and more—accessible and engaging for every learner. In honor of the upcoming Black History Month, this workshop highlights culturally responsive strategies that celebrate Black identity, creativity, and resistance across cultures. Leave with scaffolds and strategies to bring real-world texts into your classroom in powerful, inclusive ways.
